Darren,

In case you were wondering what one of your clients is thankful for as we rapidly approach Thanksgiving, I have that answer for you. In addition to my loving family, my committed staff and my dedicated clients I am thankful for my attorney. I have such a high level of appreciation for you and your services, not just at Thanksgiving or when making a New Year's resolution but all year long. When the unthinkable happens, it's relieving and refreshing to know that you are on my side. It provides me with a strong sense of security and a high level of protection which really helps minimize my anxiety and my fear. THANK YOU!

We have surely encountered a few situations of liability exposure, but you calmly got us through them. You made sure our business practices changed to ensure we minimized potential recurrences. When a properly terminated employee didn't like his termination letter and sued me personally, I was about to freak out. You made it very clear, he had no case and that you would handle everything. You absolutely did and I am so grateful. I don't know what I would have done without you and I can't imagine having anyone else represent me. THANK YOU!

The contract you arranged with our newest location is off to a splashing good start. Situated in a perfect area of Plainsboro, we couldn't be more excited to grow and build this location. Having that contract has already come in handy a few times when management had questions. I politely referenced the contract and it was all smooth sailing. THANK YOU!

Thank you for teaching me the importance of organization and documentation. With your continued guidance I find myself looking for new opportunities, paying attention to red flags and operating my business practices at a higher standard. You keep me motivated as even when we are not meeting, I look forward to presenting new ideas to you for development. THANK YOU!

I value your demeanor, your knowledge and your approach. All of those things come together seamlessly with your personality and I really can't thank you enough. Please feel free to have any perspective clients call my cell phone. It would be my pleasure to share my experiences with them and answer any questions they have without bias.

You really are... My attorney - My advantage. Happy Thanksgiving!

Swimmingly,
